More Infinite Complex

As **Infinite Complex**, along with **Infinite Water Inc.**, expand operations, the growth of their subsidiaries and partnerships also enjoys increased valuations.

Infinite Complex, is an **Operating Private Equity** holding company overseeing a number of sub-corporations. These sub-corporations have related but distinct products, services, markets and opportunities. This business model, a Diversified Conglomerate within an **Operation Private Equity** Company "OPE" (**Infinite Complex**) consolidates the subdivisions of the **Infinite Complex**.

The **Infinite Complex** approach differs from traditional Private Equity companies in bringing in **Infinite Water Incorporated** as the de-facto parent that is singularly responsible for operational synergy, efficiency optimization, uniform ethos across all entities, and shared branding program, among others in its role as the shared resource cum corporate head office.

Infinite Complex is a new industry pioneer of **Operational Private Equity**, an approach where investment professionals and operating executives work in close partnership throughout the lifecycle of an investment to improve business performance and drive long-term value creation. **Infinite Complex** differs from standard private equity investing in that sustainable operating improvements and accretive strategic initiatives are at the core of every investment from start to finish. The **Infinite Complex** private equity team has applied this operationally-oriented approach to invest capital—acquiring controlling or substantial minority interests in portfolio companies and completing international acquisitions.

As a conglomerate **Infinite Complex** is not averse to merger and acquisitions as a growth driver. While **Infinite Complex** is always on the lookout for an opportunity, they evaluate each individually and collectively to see how it fits the conglomerate's delivery objectives. Concurrently, they are always searching for investors who might fit the niche that is created or accessed. **Infinite Complex** are frequent users of special purpose vehicles (SPVs) as investment opportunities and side-pockets for specific investor / market niche.

Infinite Complex is pioneering the future of successful equity investment.
