**Hudson, Florida, March 7, 2025**

### ***One Hand Washing the Other***

**Infinite Water Inc. and Infinite Complex** have been embracing **AI** algorithms to identify areas where water scarcity is a serious and growing problem. **Infinite Water Inc. and Infinite Complex** understand that **AI** has become part of everyday life being utilized for finances, fitness and a variety of entertainment purposes. However, it can and should be used more often for aiding humanity on a grander scale such as addressing global water scarcity.

**Infinite Complex** is continuously seeking opportunities to become financially involved with businesses in the water, green and medical sectors where the **AI** component can play a significant role in propelling the company forward. Those companies with IP have need of **Infinite Complex** to push success at a faster pace

**Infinite Complex** as an Operating Private Equity holding company brings, in addition to financing, their subsidiary company's and sub-corporations' talent and resources of related but distinct products. These services, markets and advantages provide relationships within **Infinite Complex** companies to maximize synergy and cross-fertilization of ideas, markets and opportunities.

As **Infinite Complex** seeks out partnerships, they are most receptive to those that take the initiative to make the approach. To learn more: [stuart@infitewaterusa.com](mailto:stuart@infitewaterusa.com)
