Hudson, Florida, July 4, 2025

With Liberty and Justice For All

Infinite Water Inc. and Infinite Complex have always believed in the concept of MADE IN AMERICA. Whether it is corporate domicile, R&D, assembly, quality control, packaging, shipping and customer service, it is all American.

Infinite Water Inc. and Infinite Complex, currently in southern Florida, does have offices for subsidiary companies that reside in India. Having offices and warehousing in India makes sense if your largest market, by consumer, is spread throughout India.

Infinite Water Inc. and Infinite Complex are able to serve markets globally and finance projects globally from these strategic locations.

Infinite Water Inc. and Infinite Complex have a long view of the US consumer market expanding and out pacing other markets globally. This is especially true with IP spin offs from our AWG technology.

Infinite Water Inc. and Infinite Complex continually seek out opportunities that understand the philosophy of Operational Private Equity financing and relish the infusion of capital. Beyond that, they need to see the benefits that experienced top tier executives and consultations are able to bring to the table.

Infinite Water Inc. and Infinite Complex look forward to introductions with business models that aspire to get beyond the ordinary and fulfil their goals with the association of Operational Private Equity.
